Draft To: richsharma012@tcs.in

13 December 2025 at 18:46

Dear Sir/Madam,

My name is Himanshu Kumar and I am currently pursuing B.Tech in Computer Science and Engineering at Rungta International Skills University (2025–2029). I am writing to apply for a **Frontend Web Developer Internship** at your organization.

I have hands-on experience with HTML5, CSS3, JavaScript (basic and modern), Bootstrap, Tailwind, and basic C programming. I have also completed certifications such as Meta Certified Frontend Developer (Basic), Introduction to HTML, CSS & JavaScript (IBM), Programming with C Language (University of Michigan), and Introduction to Front End Development (Meta). These courses, along with my academic studies, have helped me build a good foundation in web development.

I recently worked as a team leader in the Internal Smart India Hackathon 2025, where I collaborated with my teammates to design and develop a user-friendly web solution. This experience improved my problem-solving, teamwork, and communication skills.

I am eager to learn from experienced professionals and contribute to your projects by building responsive and user-friendly web pages. I am ready to work hard, follow guidance, and improve my skills during the internship.

Please find my resume attached for your reference. I would be grateful for the opportunity to discuss how I can contribute as an intern.

Thank you for your time and consideration.

Sincerely,
Himanshu Kumar
B.Tech CSE
